## IN THE VOTING PRECINCTS OF OHIO THE GREAT BATTLE OF BALLOTS IS RAGING

Election day weather is reported as generally fair in almost all localities. Ohio particularly being favored with bright sunshine and moderate temperature.

The registration in the cities of Ohio and the great interest in the rural districts promises that a record-breaking vote for "off years" will be cast.

The Majority campaigns in the various municipalities throughout the state and the fact that delegates to a Constitutional Convention must be elected has aroused an interest among the voters rarely equaled in campaign in which only local officers are to be elected.

The Socialistic vote in the larger cities of this state and other states promises to be the heaviest ever cast and will be an element not heretofore considered important, which will furnish many surprises.

In Cleveland, Cincinnati, Columbus, Dayton and Toledo the interest in municipal elections has overshadowed all else and the total vote cast promises to overrun all previous figures.

In Washington a tremendous effort is being made by all the candidates to get out the full vote. Party lines here as elsewhere are to a great extent disregarded and the fight is being waged on local issues.

The vote in the various wards and precincts of Washington has been coming in steadily ever since the poles opened at 5:30 this morning.

Never before has the early morning vote in this city been so heavy.

### Columbus Politicians Worried by Socialistic Activity.

### CLAIM BIG MAJORITIES

President Taft Votes Early and Votes It Straight and Has Honor of Being First White House Occupant to Vote For Woman—Brand Whitlock Looks Like Sure Winner in Toledo. Marion Drys Support Socialist Candidate For Mayor.

Columbus, O., Nov. 7.—Old politicians here are up in the air as to the possible outcome of today's municipal election, their troubles being due to the presence in the political field of a third party—the Socialists. Although neither of the old party leaders concede that the Socialists can elect their ticket, they are no longer in doubt as to the strength of this party, and say it's all a question of which of the old parties the Socialists will draw the most votes from.

Democratic leaders claim their candidate, George J. Karb, a liberal, will be elected. They place Alvah C. May, the Socialist, second, and say Marshall, present mayor, running on his record of reform and Sunday closing of saloons, will be a bad third. Republicans say Marshall will be elected by 3,500. Mayor Marshall concedes second place to the Socialists, and says Karb will be a bad third. The city is normally about 5,000 Republican.

Both old parties concede that the Socialists will elect anywhere from three to five ward councilmen.

The wonderful growth of the Socialist movement is attributed to the long drawn out streetcar strike in 1910.

### WOMEN RUN THE STATE

Men Are at Home Helping to Save the Country.

Columbus, O., Nov. 7.—Women are in charge of most of the state offices today, except where the men reside in Columbus, most of the men having gone home to vote. Governor Harmon and his executive clerk, John Devanny, are in Cincinnati to help elect H. T. Hunt, Secretary of State. Graves went to Oak Harbor, Auditor Fullington to Marysville and Treasurer Creamer to St. Clairsville. Adjutant General Weybrecht will cast his ballot in Alliance. Insurance Commissioner Moore in Youngstown. Attorney General Morgan in Columbus. Dairy and Food Commissioner Strode at Gallion and Secretary of Agriculture Sandies at Marysville.

Trust Representative Objects to Political Control.

### INTERESTS BOW TO INEVITABLE

Capital and Labor Well Represented at Meeting of Congressional Commission Appointed to Investigate Subject of Workmen's Compensation—Experts Submit Figures to Show How System Works in Various Industries.

Washington, Nov. 7.—G. A. Ranney, representing the International Harvester company, who appeared before the congressional commission on employers' liability, is authority for the statement that the big business interests of the country have accepted the inevitable and have voluntarily shouldered the burden of general liability insurance.

The purpose of the present hearings is to obtain information in detail as to rates to be fixed in the proposed bill to be reported to congress. This bill will have to do with the scale of compensation for injuries sustained by employees of concerns engaged in interstate commerce regardless of the factor of contributory negligence.

Mr. Ranney said he thought the company would elect to come under the workmen's compensation law recently enacted in Ohio, but expressed doubt as to the effectiveness of the law in that state because the state is to administer it, thus bringing politics into the work. He thought many of the men would be dead before they got their pay.

The witnesses who discussed this subject, in addition to Mr. Ranney, were Dr. Chauncey R. Burr of Portland, Me., as expert on workmen's compensation and the author of several books on the subject; John Garretson, representing the international organization of railway conductors;

Ticket at Cincinnati.

Elopement Reversed.

Sterling, Ill., Nov. 7.—Miss Jennie Wilson, 48, eloped with Frank Spencer, 17. The maiden came for the boy in an auto by night, the boy slid down a rope from his boudoir, and the two fled for Chicago with the boy's papa pursuing with the spark far advanced and the muffer cut out. Papa reached the station too late to save his darling from the clutches of the beguiling maiden.

### The Gorgeous Baptismal Font In the Great Mormon Temple

Copyright by Joseph F. Smith, trustee in trust for the Church of Jesus Christ of Latter Day Saints, 1911.

ONE of the most splendid structures in the United States is the Mormon temple in Salt Lake City. Begun in 1853, it was finished and dedicated in 1893. The building, with its furnishings, cost about \$4,000,000. It is used for marriages, baptisms and all the secret rites and ceremonials of the Church of Jesus Christ of Latter Day Saints, to give the Mormon church its full corporate title. None but Mormons have been permitted to enter it since its dedication, and until recently no photographs of the interior, which is said to be more richly decorated than was Solomon's temple, have been published. The font shown in the picture is made after the pattern of the brazen font, or laver, as the King James version (1 Kings vii, 25) has it, which stood in the court of the Jewish tabernacle and afterward in the temple and contained water for the ablutions of the priests and for the washing of the sacrifices in the temple service. Only the statues of the oxen supporting the Mormon font are overlaid with gold.

## Says That He Refused To Sell Himself Out

### Bryan Tells How He Could Have Been Elected.

Lincoln, Neb., Nov. 7.—William J. Bryan has issued a final and urgent appeal to the progressive Republicans of Nebraska to vote the Democratic state ticket and thus repudiate the national administration, after condemning Taft as a friend and favorite of the trusts and declaring he wanted to see LaFollette nominated. He said: "I could have been elected president of the United States had I been willing to become the slave of predatory wealth. But in so doing I would have sold my children into

bondage. "I would like to feel once before I die like Wall Street used to feel all the time. Before they have nominated candidates on both tickets and would fold their hands and sit back and say, 'no matter what way the election goes, the people lose.' "But with the installation of progressive principles and their voicing through the nomination of candidates both presidential tickets, the people can sit back and fold their hands and say, 'no matter which way the election goes, the people win and Wall Street loses.' "

## PEKIN'S FALL IS PURE FICTION

Rebels Develope Aptitude for Distorting Truth.

### COMMUNICATION IS CUT OFF

London Unable to Secure Confirmation of Wild Story to Effect That Capital of Chinese Empire Has Fallen Into Hands of Insurgents, That Manchu Nobles Are Committing Suicide in Order to Avoid Capture or That Emperor Has Fled.

London, Nov. 7.—Quickly following reports that Peking is in the hands of the Chinese rebels, came announcements from the telegraph companies that all wire communication with the capital city has been severed.

The latest dispatches received in London from Peking do not refer in any way to altered conditions in Peking, but the reports that the rebels have captured the city continue to persist at Shanghai and other points. In spite of this the latest telegrams do not confirm the report, and there is a suggestion that the rumors are willfully put out by the revolutionists to assist their cause. It is impossible in view of the existing circumstances to determine the truth or falsity of the rumors. That Prince Ching is a prisoner, that many Manchu nobles have committed suicide, that the imperial troops have revolted and that the emperor and prince regent have fled, are some of the reports which have been telegraphed here. While there is reason to suspect the reliability of the reports, the events of the past few days demonstrate that nothing that might happen in China should cause surprise.

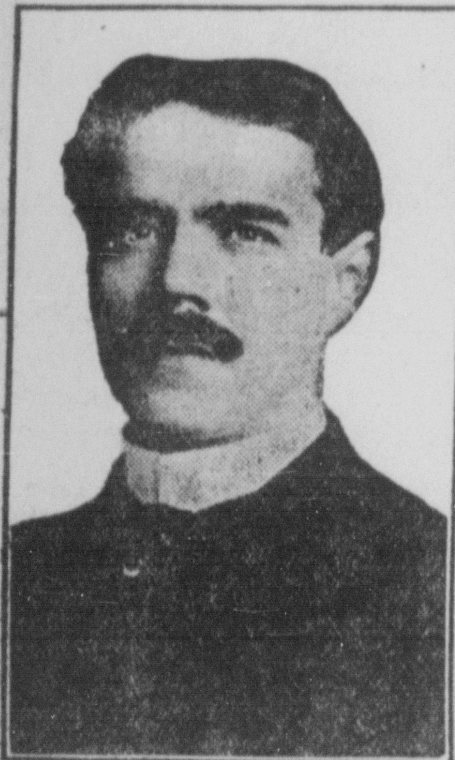

# WORKERS FULL OF ENTHUSIASM

Big Delegations For Columbus Gathering.

TO OPEN WITH BIG BANQUET

Supper For Fifteen Hundred Men Will Be Served in Memorial Hall on Monday Evening, Nov. 13, at Opening of Men and Religion Forward Movement Convention — Co-Operating Divisions Being Rapidly Perfected in Central Ohio District.

Supper for fifteen hundred men, served in the magnificent Memorial hall in Columbus, at 6:00 p. m. Monday, Nov. 13, will open the convention of "The Men and Religion Forward Movement" in this section. The national authorities say that even now, with but a few centers where the eight-day campaign has actually gone into history, the movement shows signs of sweeping the country as nothing has done for years. The co-operating cities and towns of the Columbus division are planning big delegations for the convention of Nov. 14 and 15. As a rule it is hoped the delegates will come in time for the supper of Monday evening, the 13th. One city has promised a carload of delegates and will come in a special

REV. J. E. CROWTHER.

of their own. Where the delegation is large enough, the Columbus management will reserve a special section at the tables and provide a banner. One Christian leader has said: "There is always something sacramental in eating together." Whether this is agreed to or not, it is sure that such a meal is not a purely animal function. Fred B. Smith, the national leader, and the ten experts will be present.

John L. Alexander, one of the National Boy Scout leaders, is promised for the convention and will be heard on "Boy's Work."

J. E. Crowther, the missionary leader and expert, will be present. He is a man of force, and will bring a great message. The Laymen's Missionary Movement is joining hands in the new movement.

Announcement is made that the Gldeons, a national organization of

JAMES R. SMITH, Or "Railroad Jim" Smith, Who Will Assist in Campaign.

Christian commercial travelers, have thrown themselves into the Men and Religion Forward Movement and will give effective cooperation.

"Working men respond to religion as do no other people. At least I have found this to be true from my own personal experience. What are you church men doing to make your church attractive to working men?" This from Rev. Charles Stelzie.

Co-operating organizations in the county centers of the Columbus division are rapidly being perfected. In very many cases the new movement is bringing a wider union of Christian men than has ever been known before. Committees are usually composed of the strongest men of the community.

## THE PRICE NOT PROHIBITIVE

# THE POPULAR TURKEY

THANKSGIVING DINNER WITHIN REACH

The supply of turkeys in the Cincinnati market is plentiful and the indications from the country are that there will be sufficient on the market for Thanksgiving consumption to hold the price at least five cents a pound under what it has been for the past three years. Live turkeys were quoted at the Chamber of Commerce at 15 1-2 cents a pound, which is the price that commission houses pay the farmers for their birds.

There is an average difference of about six cents a pound between the quotation of the Chamber of Commerce and what the retail merchant asks the consumer to pay. Turkeys are now retailing around 21 cents a pound.

While the wholesale market has advanced about one cent a pound on turkeys during the week, which was due to a smaller supply, the indications are, commission men say, for a decline rather than an advance from now until Thanksgiving. On a wholesale basis turkeys are selling this year about \$3 per 100 pounds, alive, under what they were at this time last year and the year previous. Chickens, too, are from \$3 to \$4 per 100 pounds under what they brought last year and the year before.

Samuel Eberle, of C. Eberle & Sons commission merchants of Cincinnati, discussing the turkey crop Monday, said: "There is a plentiful supply of poultry in the country this year and the market outlook is that the Thanksgiving dinner is going to be much cheaper than it has been in three or four years. We draw our big supply of poultry and turkeys from Indiana and Kentucky. The high prices that farmers received for turkeys last year and the year before, when they were paid up to 20 cents, has stimulated the countrymen to raise more, and, coupled with good growing conditions, has been responsible for the big crop. Chickens are cheaper than they have been in several years, and there is a noticeable increase in the consumption."

### TAFT VOTES FOR WOMAN

Keeps Promise and Visits Cincinnati Polls Early.

Cincinnati, O., Nov. 7.—President Taft voted early today, as he agreed to do when registering yesterday, and in accordance with the declaration contained in his letter to Former Mayor Fleischmann, he voted the straight Republican ticket.

There is much criticism of this announcement here on the score that in so voting Mr. Taft supported the candidates of the so-called boss, George B. Cox, about whom he spoke so bitterly at Akron when he was secretary of war. The president refused to discuss his announcement, saying merely he knew the Republican candidates and was convinced of their worthiness.

In voting today the president cast the first ballot of any president of the United States for a woman who is seeking office. He voted for Miss Edith Campbell, candidate for member-at-large of the local school board.

### Claim Baker's Election.

Cleveland, O., Nov. 7.—Democratic campaign managers predict Baker's election by a large majority. Hogen's managers predict a decisive majority. Odds on Baker are \$100 to \$50 and even money he gets 8,500 majority. Thousands have been wagered at \$25 to \$100 that Baker wins by 12,000.

### Easy Victory For Whitlock.

Toledo, O., Nov. 7.—The fourth election of Brand Whitlock, independent, as mayor of Toledo, is conceded by all the experienced political observers in the city. The only question of interest is how many votes the other three candidates will receive.

### Drys Support Socialist.

Marion, O., Nov. 7.—Most unusual developments occurred in the mayoralty race. Radical drys have denounced Brockett (Rep.) and Walters (Dem.) as being wets, and declare they will support Hains, Socialist, a Sunday school superintendent, for mayor.

### Got Off Cheap.

Ironton, O., Nov. 7.—The Business Men's association of Lawrence county, which conducted the fight against prohibition, has filed its report, which shows it spent \$1,909.47. The drys have not filed their report.

## GRAY HAIR MAKES YOU LOOK OLD

Use Wyeth's Sage and Sulphur and Your Gray Hair Will Quickly Vanish.

Gray hair is a mark of age, and nothing that can be said as to its beauty will offset the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients, which makes a delightful dressing for the hair, and which not only removes every trace of dandruff but promotes the growth of the hair. It also stops the hair from falling out, and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

Don't neglect your hair and don't resort to old-time hair dyes. Get a bottle of Wyeth's Sage and Sulphur from your druggist today, and notice the difference in your hair after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug store.

### CHILLICOTHE DISTRICT

#### CONFERENCE.

The Chillicothe District Conference will be held in Hamden, O., Nov. 13, 14, 1911.

It is expected that there will be a large representation of the ministers and laymen of the district in attendance at the opening meeting Monday night.

Rev. W. E. Prior will conduct devotional services and Rev. J. A. Currier, pastor of the Hamden church, gives the address of welcome. Rev. W. J. Jewett gives the response and Rev. A. P. Cherrington delivers the sermon.

Thursday morning's meeting will be largely devoted to "The men and Religion Forward Movement."

Tuesday afternoon Rev. T. W. Locke, pastor of Grace church, of this city, opens a discussion on "The Signs of the Times."

The Conference closes Tuesday evening with a temperance address by Rev. James Rutledge.

The district stewards' meeting will be held in the Hamden church Tuesday at 2 p. m. and all district stewards are urged to be present.

#### RECEPTION.

A very pretty reception was given Mr. and Mrs. Alden Bush at the beautiful country home of Mr. Bush's parents, Mr. and Mrs. J. P. Bush upon their return from a ten days' wedding trip. The table was laid with twelve covers, the flowers being pink and white chrysanthemums, pink and white carnations with heart shaped favors for souvenirs. Those present were Mrs. Clara Galbraith and daughter, Miss Gladys, mother and sister of the bride, Mr. and Mrs. Chas. Sturgeon, Messrs. Ralph and Lee Sturgeon of Frankfort, Mr. and Mrs. Vernon Bush, Mr. and Mrs. Frank Miller and Miss Ethel Miller of Washington C. H., Mr. and Mrs. J. A. Bush, Mr. and Mrs. Marvin Slagle, Mrs. James Mitchell, of Selden.

The young couple have the best wishes of all present for a long, happy and prosperous wedded life.

SECRETARY.

Augusta, Me., Nov. 7.—Maine retains constitutional prohibition. Governor Plaisted and his council late last night decided to accept the corrections in the vote of four towns cast in the special election in September, thus reversing the result as indicated on the face of the first official returns.

Returns on election day, September 11, indicated a majority of about 300 against the repeal of the prohibitory amendment, but later the official showed a majority of 26 for repeal.

It was found by comparison, however, that in four cases the figures of the town clerks were reversed from their early returns and in each case the clerks claimed the error to be in the official figures. After hearings on the subject, the governor and council took the matter under consideration and the result was the announcement last night that Maine retained constitutional prohibition by 758 votes.

Governor Plaisted at the conclusion of the meeting, said that an early date, probably in February, he would call a special session of the legislature to "submit an amendment to the constitution, which will permit the enactment of laws concerning the liquor traffic which are capable of honest enforcement because sustained by the sentiment of the several communities to which they will be applied."

An analysis of the vote, the governor declared, showed an overwhelming majority against prohibition in the cities and a large majority for it in the towns.

## Estimates Loss 18,000 Swine

A local veterinarian in speaking of the great loss sustained by Fayette county farmers on account of the hog cholera epidemic this fall, stated that he believed that the loss this fall would reach 18,000 hogs, or three times as great as the loss detailed last year because of the same disease.

The total loss in dollars and cents will reach \$100,000, according to his figures, and as a result the county has been so depopulated of its swine that it will require three to five years to secure a like number.

The epidemic is still causing the swine to die by the hundreds, and the fall pigs will be exceedingly scarce as a result of the inroads made upon their ranks by the cholera.

This loss in the face of the state's effort to stamp it out by administering anti-toxin, has been the source of widespread comment, and the state is still blamed by many for the great spread of the disease.

## THE CRIMINAL RECORD OF

## JUSTICE'S PAL

IS A LONG AND DARK ONE

The authorities at Troy are preparing to prosecute Charles, alias "Humpty" Scott, of Xenia, for the cowardly shooting of two railroad men at that place a week ago, and have applied to the Xenia police for his criminal record. The record was prepared by Police Officer Williams and has been sent to Troy. It shows that Scott was first arrested in Xenia in 1888 on a loitering charge and was sent to the work house. After that his name does not appear again on the Xenia police records until 1899, when he was arrested on a charge of shooting with intent to kill and was sent to Piqua, where the crime was committed. For that offense he was given a life sentence in the Ohio penitentiary. He only served about ten years of the sentence when he was released and returned to Xenia in 1910. Immediately upon his return he was arrested for disorderly conduct. On December 12th he was arrested for carrying concealed weapons and on the 27th of the same month he was arrested for assault and battery. Early in January of 1911 he was arrested for gambling and in June was arrested again on a similar charge. In September he was arrested by Officer Williams on a charge of carrying concealed weapons and was fired out of Xenia under suspended sentence of \$200 and 30 days. On that occasion he attempted to kill Officer Williams. Scott will probably spend the remainder of his days in the penitentiary, if he does not occupy the same chair in which Chas. Justice, the murderer, met his fate.

### AFTER IT'S OVER.

The bright morning sun gives promise of an ideal election day and all over Ohio in every voting precinct the indications are that a record vote will be cast.

There is great interest manifested everywhere in the mayoralty campaign and in the election of delegates to the constitutional convention. These two matters are attracting the particular attention of the voters.

In some localities the school board election is attracting its full share of attention, but in Washington there is no opposition to the candidates for school board.

The extraordinarily heavy vote promises some big surprises.

The Socialist vote gives every indication of being heavier this year than has ever before been cast in Ohio. This vote is heaviest in the large cities, in fact almost the entire Socialist vote is confined to the cities.

This vote promises to be a revelation to doubting ones in Columbus, where the adherents of the Socialist candidate have made him a favorite over all in the betting.

It is to be hoped and it is believed that this election, hard fought as the campaign has been, will prove no exception to the general rule, that with the close of the polls the fight will stop.

Men will cease to be "enemies" as they have been for the last few weeks and will settle down to real business again tomorrow morning and then fully recognize, whether successful or unsuccessful at the polls, what they would never in campaign time have admitted, that the city will go along, no matter who is elected and that after all the other candidate is not such a bad fellow.

This ability of the American people to adapt themselves to conditions and not harbor malice or carry politics into business is the salvation of the nation.

The way in which we Americans can get excited and wrought up over an election and forget it within fifteen seconds after the polls close is the wonder and the admiration of the people of all nations.

No matter who is elected in today's big battle of ballots the people are going to be satisfied and start out upon the theory that the officers elected will do their whole duty until the contrary fully and conclusively appears.

## Playing Politics Is Present Day Evil

If our leaders who are fighting for political advantages will endeavor to serve the best interests of the country the disturbance will pass without unpleasant results.—William Guggenheim.

There should be more business men in public life. The solving of many great problems that vitally affect industry are too often left to incompetent legislators.—John Hays Hammond.

By WILLIAM GUGGENHEIM

By JOHN HAYS HAMMOND

LET all parties STOP PLAYING POLITICS and TELL THE PEOPLE THE TRUTH. It is generally admitted that we are in the throes of a great economic disturbance, not only in the United States, but throughout the world.

The TWO GREAT FACTORS working against ECONOMIC EQUILIBRIUM are—first, man's preference for industrial as against farm work; second, his wonderful ingenuity in facilitating production easily causes overproduction and a consequent strain on capital. Add to the above a third factor, the ARTIFICIAL stimulation of industrial enterprise by TOO HIGH A TARIFF.

THE general complaint among business men is that there is too much "PLAYING POLITICS," and I believe there is much truth in this view.

There is undoubtedly a readjustment between capital and labor taking place the world over. The proper equilibrium that will be established will be for the advantage of both capital and labor.

All other great commercial nations ENCOURAGE combinations of capital and the operation of industries upon a large scale. Industrial development on these lines is, of course, fraught with the danger of MONOPOLY, and it is here that GOVERNMENTAL SUPERVISION must come in.

## Poetry—Today

### THE WEEK IN SCHOOL.

Monday's Adenoidal Day—  
Bring bandages and salves;  
For Doctor Jones will cut away  
The adenoids you have.  
No doubt you will be overjoyed.  
When Doctor Jones is through,  
To know no fretful adenoid  
Again will trouble you.

Tuesday will be Tonsil Day—  
Of that please make a note:  
For Doctor Brown will cut away  
The tonsils from each throat.  
Bring cotton, lint and vaseline.  
This class meets sharp at ten,  
And tonsils will be snipped off clean—  
Nor trouble you again.

Wednesday is Appendix Day  
For Classes A and B;  
When Doctor Smith will cut away  
This superfluity.  
Please don't forget the day, as said—  
The classes meet at ten.  
Bring needles and a spool of thread  
To sew you up again.

Thursday is Antitoxin Day—  
So kindly be prepared;  
Bring gauze and antiseptic spray.  
All right arms will be bared.  
Or left arms if you so elect.  
Be punctual, pray do;  
For Doctor Puncture will inject  
The serum sharp at two.

Friday's Vaccination Day  
For fall and winter terms.  
Those who have fresh scars will stay  
For antityphoid germs—  
Half a billion's the amount.  
Classes meet at four.  
Doctor Green will make the count—  
Doctor Gray will pour.

Saturday's Recreation Day—  
Thermometers at three;  
Bring stethoscopes and Doctor Gray  
Will make blood-counts, to see  
How science triumphs o'er disease—  
How antitoxins rule.  
Now mark the weekly program,  
please.  
And don't be late for school.  
—Saturday Evening Post.

**SYNOPSIS.**

**CHAPTER I.**—Elam Harnish, known all through Alaska as "Burning Daylight," celebrates his 30th birthday with a friendly crowd of miners at the Circle City Tivoli. He is a general favorite, a hero and a pioneer in the new gold fields. The dance leads to heavy gambling in which over \$100,000 is staked. Harnish loses his money and his mine but wins the mail contract of the district.

**CHAPTER II.**—Burning Daylight starts on his trip to deliver the mail with dogs and sledges. He tells his friends that the big Yukon gold strike will soon be on and he intends to be in it at the start. With Indian attendants and dogs he goes over the bank and down the frozen Chukchee and in the gray light is gone.

**CHAPTER III.**—Harnish makes a sensational rapid run across country with the mail, appears at the Tivoli and there is another characteristic celebration. He has made a record against cold and exhaustion and is now ready to join his friends in a dash to the new gold fields.

**CHAPTER IV.**—Harnish decides where the gold will be found in the up-river district and buys two tons of flour, which he declares will be worth its weight in gold before the season is over.

**CHAPTER V.**—When Daylight arrives with his heavy outfit of flour he finds the big fat desolate. A comrade discovers gold and Harnish reaps a rich harvest. He goes to Dawson, begins investing in corner lots and staking other miners and becomes the most prominent figure in the Klondike.

**CHAPTER VI.**—Harnish makes fortune after fortune. One lucky investment enables him to defeat a great combination of capitalists in a vast mining deal. He determines to return to civilization and gives a farewell celebration to his friends that is remembered as a kind of blaze of glory.

**CHAPTER VII.**—The papers are full of "The King of the Klondike," and Daylight is feted by the money magnates of the country. They take him into a big copper deal and the Alaskan pioneer finds himself amid the bewildering complications of high finance.

**CHAPTER VIII.**—Daylight is unbooned by the moneyed men and finds that he has been led to invest his eleven millions in a manipulated scheme. He goes to meet his disloyal business partners at their offices in New York City.

**CHAPTER IX.**—Confronting his partners with a revolver in characteristic frontier style, he threatens to kill them if his money is not returned. They are cowed into submission, return their stakings and Harnish goes back to San Francisco with his unimpaired fortune.

**CHAPTER X.**—Daylight meets his fate in Dede Mason, a pretty stenographer with a crippled brother, whom she cares for. Harnish is much attracted towards her and interested in her family affairs.

**CHAPTER XI.**—He becomes an element in large investments on the Pacific coast and gets into the political ring. For a rest he goes to inspect one of his properties in the country and momentarily is attracted back to the old life on the lone-some trail.

**CHAPTER XII.**—Daylight gets deeper and deeper into high finance in San Francisco. He makes frequent runs into the country thus getting close to nature, but his mind is still in the speculation trend. Very often, however, the longing for the simple life well nigh overcomes him.

**CHAPTER XIII.**—Dede Mason buys a horse and Daylight meets her in her saddle trips. He begins to indulge in horseback riding and manages to get into her company quite often.

**CHAPTER XIV.**—One day Daylight asks Dede to go with him on one more ride, his purpose being to ask her to marry him, and they canter away, she trying to analyze her feelings.

(Continued from Yesterday's Issue.)

"Look at it," said Daylight, extending his arm in a sweeping gesture. "A hundred thousand people there, and no reason there shouldn't be half a million. There's the chance to make five people grow where one grows now. Here's the scheme in a nutshell. Why don't more people live in Oakland? No good service with San Francisco, and, besides, Oakland is asleep. It's a whole lot better place to live in than San Francisco. Now, suppose I buy in all the street railways of Oakland, Berkeley, Alameda, San Leandro, and the rest—bring them under one head with a competent management? Suppose I cut the time to San Francisco one-half by building a big pier out there almost to Goat Island and establishing a ferry system with modern up-to-date boats? Why, folks will want to live over on this side. Very good. They'll need land on which to build. So, first I buy up the land. But the land's cheap now. Why? Because it's in the country, no electric roads, no quick communication, nobody guessing that the electric roads are coming. I'll build the roads. That will make the land jump up. Then I'll sell the land as fast as the folks will want to buy because of the improved ferry system and transportation facilities.

"You see, I give the value to the land by building the roads. Then I sell the land and get that value back, and after that, there's the roads, all carrying folks back and forth and earning big money. Can't lose. And there's all sorts of millions in it. I'm going to get my hands on some of that water front and the tide-lands. Take between where I'm going to build my pier and the old pier. It's shallow water. I can fill and dredge and put in a system of docks that will handle hundreds of ships. San Francisco's water front is congested. No more room for ships. With hundreds of ships loading and unloading on this side right into the freight cars of three big railroads, factories' will start up over here instead of crossing to San Francisco. That means factory sites. That means me buying in the factory sites before anybody guesses the cat is going to jump, much less, which way. Factories mean tens of thousands of workmen and their

## Haywood Is Busy Organizing Strike

**Labor Leader Organizes Strike For J. J. McNamara.**

New York, Nov. 7.—One million union workmen in this country stand ready to strike in event the McNamaras are not acquitted in Los Angeles. That was announced by William D. Haywood, a western labor leader, who was acquitted of complicity in the murder of Governor Steunenberg of Idaho. Haywood now is engaged in working up a sympathy strike in behalf of J. J. McNamara.

Want Ads are profitable.

At the same time that his electric roads were building out through the hills, the hay-fields were being surveyed and broken up into city squares, with here and there, according to best modern methods, winding boulevards and strips of park. Broad streets, well graded, were made, with sewers and water-pipes ready laid, and macadamized from his own quarries. Cement sidewalks were also laid, so that all the purchaser had to do was to select his lot and architect and start building. The quick service of Daylight's new electric roads into Oakland made this big district immediately accessible, and long before the ferry system was in operation hundreds of residences were going up. The profit on this land was enormous. In a day, his on-slaught of wealth had turned open farming country into one of the best residential districts of the city.

But this money that flowed in upon him was immediately poured back into his other investments. The need for electric cars was so great that he installed his own shops for building them. But no matter what pressure was on Daylight, his Sundays he reserved for his riding in the hills. It was not the rainy winter weather, however, that brought these rides with Dede to an end. One Saturday afternoon in the office she told him not to expect to meet her next day, and, when he pressed for an explanation.

"I've sold Mab."

Daylight was speechless for the moment. Her act meant one of so many serious things that he couldn't classify it. It smacked almost of treachery. She might have met with financial disaster. It might be her way of letting him know she had seen enough of him. Or . . .

"What's the matter?" he managed to ask.

"I couldn't afford to keep her with hay forty-five dollars a ton," Dede answered. "My brother's expenses have been higher, as well, and I was driven to the conclusion that since I could not afford both, I'd better let the mare go and keep the brother."

"Who bought her?" he asked.

Dede's eyes flashed in the way long since familiar to him when she was angry.

"Don't you dare buy her back for me," she cried. "And don't deny that that was what you had in mind."

"I wish you would reconsider, Miss Mason," he said softly. "Not alone for the mare's sake, but for my sake. Money don't cut any ice in this. For me to buy that mare wouldn't mean as much as it does to most men to send a bouquet of flowers or a box of candy to a young lady. There's nobody I feel chummy with except you, and you know how little we've chummed—once a week, if it didn't rain, on Sunday. I've grown kind of to depend on you. If you'd just let me buy her back—"

## On Serious Charge

Are Arrested and Placed in Jail

The Former Pleads Guilty and Is Sent to Workhouse

SMITH IS STILL IN THE JAIL

Awaiting Trial on a Plea of Not Guilty.

Thurman Palmer and Frank Smith were placed under arrest late Monday evening upon an affidavit filed against them, charging them with contributing to the delinquency of thirteen-year-old Mabel Shoemaker, of the English Addition, the affidavit being filed Monday afternoon by the child's father.

Palmer was arraigned before Mayor Allen and entered a plea of guilty to the charge, whereupon Mayor Allen gave him six months in the work house, this being the minimum fine, as the penalty is from one to twenty years in the penitentiary, or six months in the work house.

Smith was placed in jail and his case will receive attention Tuesday or Wednesday of this week. Palmer is still in jail awaiting commitment to the work house.

The affair is alleged to have taken place Saturday night, and the girl was absent from home until some time Sunday.

## Typhoid Rages Family Afflicted

The entire family of John Frye, of near Cedarville, has been stricken with typhoid fever, and the father died a few days ago, leaving 7 of the family ill with the disease, three of them being in a critical condition.

A brother of Mr. Frye's who went to the stricken home to nurse the sick, contracted the disease and is now confined to his bed in Yellow Springs. The source of infection has been traced to the well from which the family used water.

## AVOID HARSH DRUGS.

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

## Annual Consumption Of Liquors in U. S.

Consuming more beer in the aggregate than any other country in the world, the United States leads all nations in the total consumption of malt liquors, wines and distilled spirits with the enormous total of 2,045,300,000 gallons, the department of commerce and labor announced the other day.

The per capita consumption of beer in the United States was only 20.09 gallons in 1910, while in Belgium it is 55.2 gallons, in the United Kingdom 31.44 gallons, and in Germany 26.47 gallons. Germany was second in the total consumption of beer and the United Kingdom third.

In the consumption of wines, France leads with 39.36 gallons per capita, followed by Italy with 31.17 gallons. The per capita consumption in the United States is only about two-thirds of a gallon.

In distilled spirits Denmark leads with the consumption of 2.97 gallons per capita, Hungary, second with 2.11 gallons, and the Netherlands third with 1.84 gallons. The United States per capita consumption is 1.45.

## Girl Bride Commits Suicide

Dayton, O., Nov. 7.—"Come home if you want to, I'm going to commit suicide," said Mrs. Rose Patterson, 19, over the telephone to her husband, James Patterson, a molder. Patterson ran 15 city blocks frantically and upon arriving home found his girl bride in the throes of death. He threw himself over the body of his wife on the floor and his cries attracted the neighbors. They rushed in to find the man crazed. Police were called and he was dragged away a hopeless maniac, it is said.

## Attacks Two Jurors

Darrow Will Keep Up Fight on McKee and Winter.

Los Angeles, Nov. 7.—Clarence Darrow served notice that he will make a further attack on the eligibility of jurors A. C. Winter and George W. McKee, who have already been seated in the McNamara case, over his challenge, for actual bias. Judge Bordwell required a showing of cause—that is, an affidavit or other proof that the examination is reopened on the strength of evidence not in the possession of the defense at the time the former challenge was disallowed. The showing will be made today.

Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time.

either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store. Blackmer & Tanquary.

## START OF WORLD'S CHAMPIONSHIP SERIES

The illustration given above was taken during the first inning of the recent series between the Giants and Athletics. Collins is at bat, with Mathewson pitching and Meyers catching.

### GOSSIP OF SPORTDOM

Toes are more important now in football than weight.

Ruffner, the Purdue player, "wasn't any rougher'n lots of others."

Illinois has a great deal of respect for "Chicago luck" in football.

In football nowadays the chiropract takes the place of the trainer.

In a world's championship series heavy batting is better than good luck.

Pennsylvania's improved football team has caused Yost to sit up and take notice.

In the international football game, Tripoli bears a striking resemblance to the football.

Nothing but poor playing by the home team ever interferes with the baseball business.

Lucky Frank Schulte is married. His wife can teach him how to drive that new automobile.

Has any one noticed the golfers bringing their clubs home? Another sign of an early winter.

To hear track men talk, one would think the Olympic games were nearly as important as the city championships.

Orvie Overall is now a member of the heaviest battery in the country. Orvie weighs 230 pounds himself and his catcher, Tub Hackett of the Stockton (Cal.) Independents, pushes the scales up to 228.

### TENNIS CHANGES IN ENGLAND

Lawns Gradually Being Replaced by Hard Surface Courts in Vogue Elsewhere—Experience Wins.

"Go it, baldhead!" was a cry frequently heard at the recent lawn tennis tournament at Wimbledon, and a spectator could not help observing that gray hairs and bald heads outnumbered the locks of youth among the players after the first day or two. Yet lawn tennis is an athletic game, perhaps, the most active of all summer pastimes, demanding unusual powers of endurance, and one looks for endurance and agility in the young.

Finding that the daring and physical strength of youth are beaten by the experience of age, the conclusion to be drawn is that the new generation is not learning the essentials of the game. The group of veterans who beat the youngsters this year cannot be expected to do these wonders again. Young men from other countries will come again and they will win because there will be no opposition to prevent them from doing so. And why? Because, some critics say,

the continent has learned the game from professionals and has learned it upon hard courts.

There is a freedom and power in the foreign style which is absent from the English game, in which few risks are taken. In all probability this springs from the fact that the typical courts of the continent are not grass, but have a hard, smooth surface from which every ball makes a true bound. Scarcely one grass court in ten can be relied upon for a true bound of the ball. On such inferior surfaces style becomes cramped. First-class players are not to be trained upon third rate courts.

The best promise for English lawn tennis is the fact that the clubs are losing their faith in grass. In 20 years' time the very name of lawn tennis may appear strange to our ears, the number of actual lawns devoted to the game will have become so small. Already hard courts are being constructed in every direction. In a few years they will probably give England a new school of tennis players who will meet on equal terms the best products of the continental and American clubs.

### DON'T LIKE FORWARD PASS

Violation of Elementary Principles of Football, Says "Mike" Murphy of Pennsylvania.

"Mike" Murphy, the veteran football trainer, is convinced that the forward pass is poor football.

"The point I make against the forward pass," said Murphy, "is that it is a violation of the elementary principles of football. It never was or will be anything but a haphazard play, and it disorganizes any team's defense."

"I have always contended that what football spectators like to see is the ball moved down the field by a series of well-executed plays, cleverly designed and operated. The basketball feature in which the ball is thrown all over the field and passes back and forth from one team to another is certainly not good football."

"I would like to see a return to some of the principles of the old game."

**GOPHER TRICKS ARE STUDIED**  
Stringer Brooks of Yale Football Team in Minneapolis Confering With Coach Williams.

Stringer Brooks, assistant coach of Yale university's football squad, was in Minneapolis recently the guest of Coach Harry L. Williams of the Minnesota eleven. Brooks two years ago distinguished himself among the Yale players at left end. He arrived in Minneapolis to study Minnesota formations, and will carry them to the Blue squad on his return to the east.

## MAR FOOTBALL GAMES

Right to Question Decisions Belongs to Captain.

Nothing Is More Repulsive to Spectators Than Constant Squabbles Between Competitors and Officials During Contest.

In football as well as in every branch of sport, nothing is more repulsive to spectators than constant squabbles between competitors and officials.

To question the decision of judges at a horserace, or a footrace, automobile, or trotting race simple is a waste of time, and these decisions cannot be reversed unless there is a wrong interpretation of rules which govern such contests.

If coaches would enforce a rule that only captains of elevens could question or ask an interpretation of an official's decision football certainly would be placed on a higher plane and one of the most distasteful features of the game so far as the spectators are concerned would be obliterated, writes Walter Eckersall in the Chicago Tribune. Football officials are selected because of their known impartiality, their thorough knowledge of the rules, and their sense of honor.

The men, all college graduates, officiating in gridiron contests this year have been put to many severe tests, and in few instances have they erred. Spectators never should condemn an official for levying a penalty, for the arbiters of the game are in better position and understand more thoroughly the exact interpretations of the rules. Use of hands in the interference, coaching from the side lines, holding in the line, offside play, and a number of other infringements of the rules are points which the average spectator does not see, but when an official inflicts penalties for such breaches of the rules he generally meets with criticism from the stands.

Those who have played football and have been in many hard fought contests have had fouls called when they did not believe they were guilty of any infringement. In such cases, these players have been so carried away with the excitement of the contests as to be unconscious of any breaches in the rules they made, but when apprised of the conditions by officials they have admitted their guilt.

In the large universities, where it is part of the preparation of an eleven to teach the players the rules and their possibilities, the players seldom question an official's decision. The members of these teams are so well versed in the rules as to know when an arbiter's decision is right or wrong and for this reason few disputes arise.

If the colleges in the eastern, western, and Missouri valley conferences would follow the precedent established at West Point, one of the most distasteful features of football would be done away with. Discipline reigns supreme at the army institution. The captain of a football team controls his men the same as a colonel of a regiment or captain of a company. If any member of a West Point football eleven questions the orders of the captain he must report to higher officials as soon as the same is completed if the captain files charges.

### CAPTAIN ROBERTS.

Shifty Half-Back on Illinois Team.

**First Serious Football Injury.**  
The first serious football injury of the season in the east has put John Thompson, of St. Joseph college, in a hospital at Philadelphia for several weeks with a fractured leg. He was playing on the scrub team against a regular team when one of the players whom he tackled fell upon him.

**Jack Tighe Goes to Louisville.**  
It has been announced that John Tighe would succeed "Del" Howard as manager of the Louisville American association baseball team. Tighe was for several years manager of the Rock Island team in the Three I league, and later managed the Seattle club of the Northwest league.

**Three Players Hurt.**  
In Knox college-Peoria Bradley Polytechnic football game at Galesburg, Ill., Captain Montgomery of Bradley broke his right hip, Scherer of Bradley broke two ribs, and Montgomery, also of Bradley, dislocated his shoulder.

# Musterole Means Mustard Oil—

Combined with other simples used in home medicine.

It is a clean, pure, white ointment that does all the work of the good old-fashioned mustard plaster—but does it better and without the blister.

**MUSTEROLE GIVES ALMOST INSTANT RELIEF FROM ACHES, PAINS AND SORENESS, AND NOT A BLISTER REMAINS.**

Instead, it has a delicious, comforting, soothing effect.

You simply rub MUSTEROLE on briskly and the pain is gone!

MUSTEROLE is so penetrating that it enters the pores at once, stops the sharp twinges—brings ease and complete relief—and breaks up the congestion.

Mustard has been a family remedy for centuries.

## Liability Lam Given a Roast by Mr. Ranney

### Burr Submits Statistics.

Dr. Burr gave a scientific presentation of the elements that should be taken into consideration in determining the status of a workingman's services; according to tables he submitted a workman at the age of 20 years rendering service valued at \$1 per day has an economic value of \$6,230. But this value decreases as he advances in years until at the age of 79 his economic worth is just \$2,000. Professor Burr discussed the plans of several countries for taking care of their working population, and said that in most of the foreign systems the liability insurance paid amounts to about 60 per cent of the workman's earning capacity.

The committee will make its report to President Taft within a few months and it is expected the president will then transmit the report to congress with his recommendations. A bill undoubtedly will be introduced early in the coming session and efforts made to pass it. The plan which the commission now has in mind is patterned after the English system, which provides that each particular industry or employer shall care for the employees within the scope of that particular employment and no other.

Senator Sutherland of Utah is chairman of the commission. The other members are Senator Chamberlain of Oregon, Representatives Brantley of Georgia and Moon of Pennsylvania, President Brown of the New York Central railroad and D. L. Cense, editor of the Railway Trainmen.

## Chicago Women Are Caught In Raid

Windy City Police Find Them Running Poolroom.

Chicago, Nov. 7.—Assistant Chief Schuetzler's new gambling squad broke down the door of a flat in the West Side residence district, and then stopped abashed. Instead of the usual assortment of men they expected to find there were seven men clustered about the paraphernalia of a poolroom. The women were arrested, one as the keeper of a handbook and the others as inmates. One of those arrested as an inmate was 72 years old.

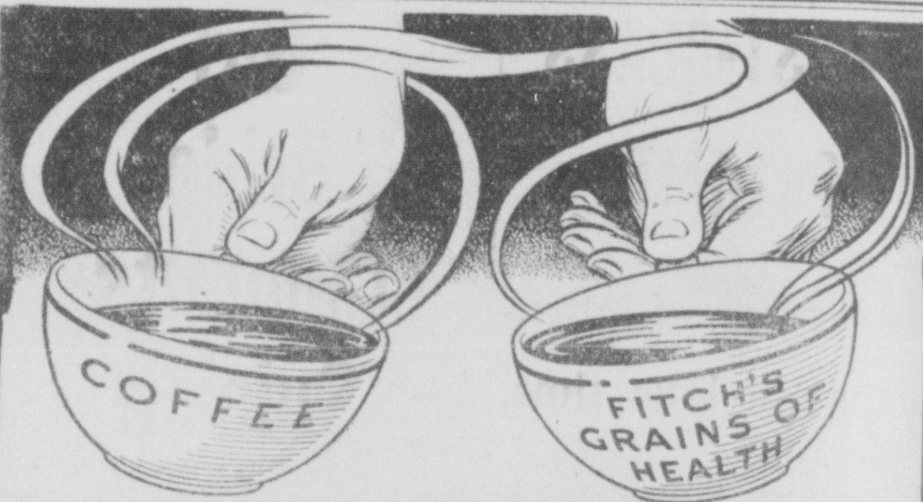

**PURITY POTATO CHIPS  
SOLD AT ALL GROCERIES.**

### SAVED MANY FROM DEATH

W. L. Mock, of Mock, Ark., believes he has saved many lives in his 25 years of experience in the drug business. "What I always like to do," he writes, "is to recommend Dr. King's New Discovery for weak, sore lungs, hard colds, hoarseness, obstinate coughs, la grippe, croup,

asthma or other bronchial affection,

for I feel sure that a number of my neighbors are alive and well today because they took my advice to use it. I honestly believe it's the best throat and lung medicine that's made." Easy to prove he's right. Get a trial bottle free, or regular 50c or \$1.00 bottle. Guaranteed by Blackmer & Tanquary.

## Try This Experiment On Your Family

Serve Fitch's GRAINS OF HEALTH instead of coffee for breakfast without calling anyone's attention to it.

Be sure that Fitch's GRAINS OF HEALTH is made according to directions. Like coffee, you can spoil it. But Fitch's GRAINS OF HEALTH is just as easy to prepare as coffee. See whether anybody notices the difference—or if your family thinks it is coffee, whether it is better than usual. Many who used to be coffee fiends say they now prefer Fitch's GRAINS OF HEALTH for its delightful flavor of the finest coffee.

## Fitch's Grains of Health

The Coffee Substitute With the Coffee Taste

Here is another interesting experiment.

Pour Fitch's GRAINS OF HEALTH into one cup, and the drinker's favorite brand of coffee into another.

Trim them exactly alike, and ask the drinker to tell which is which.

He may make a good guess, but it will be only a guess.

**Smells Like Good Coffee  
Tastes Like Good Coffee**

Fitch's GRAINS OF HEALTH has been substituted for coffee in many families and confirmed drinkers have not known the change. Fitch's GRAINS OF HEALTH smells like good coffee—tastes like good coffee, but has not one of coffee's bad effects. Caffeine, the part of coffee which causes the headaches and nervousness, has been counteracted in Fitch's GRAINS OF HEALTH.

Fitch's GRAINS OF HEALTH is a simple combination of a special high-grade blend of coffee with herbs, roots and vegetables, which make

it a positive health benefit. Drink all the Fitch's GRAINS OF HEALTH you want. The more the better.

You can serve Fitch's GRAINS OF HEALTH to the children. It is good for them. No intelligent adviser would ever tell you to serve coffee to children.

### Recommended by Physicians

You can serve Fitch's GRAINS OF HEALTH to the sick. We have testimonials from doctors who use Fitch's GRAINS OF HEALTH and recommend it.

But don't think we offer you Fitch's GRAINS OF HEALTH on its remedial merits alone. It is a substitute for coffee for all coffee drinkers. It has the aroma, it has the taste, it has the revivifying effect. It has all the attractions of the real thing, and it's healthified.

### Ask Your Grocer

Fitch's GRAINS OF HEALTH is sold by all leading grocers. The price is 30 cents the pound. It is ground, ready for use. It is just as easy to prepare as coffee; but only half as much of Fitch's GRAINS OF HEALTH is required as coffee—a teaspoonful to a cup. Therefore it really costs only half as much as good coffee.

If your grocer cannot supply you, write us, mentioning his name, and we will send you a generous sample package of Fitch's GRAINS OF HEALTH (enough to serve a large family at breakfast) and a booklet telling you all about Fitch's GRAINS OF HEALTH. Enclose 6 cents in stamps for postage.
